

Sustainability Policy

Statement of intent

Sustainability Policy

Alpha Mechanical Services Ltd & Alpha Facilities Maintenance Ltd is committed to the principle of sustainability. This means meeting the needs and expectations of our stakeholders by recognising that active engagement in social progress, environmental protection and economic balance is necessary for long term development. We are committed to protecting employees, customers, visitors and members of the public from ill health, accidents and all safety risks associated with our activities.

The welfare of our staff is fundamental in ensuring that we continue to prosper. We operate a safety management system that is modelled on the requirements of ISO 45001. Our contribution to social progress ranges from our inclusive recruitment and career development opportunities, donations of time and finance to charitable causes and supporting local community organisations.

We promote the efficient use of energy, water, materials, fuel, biodiversity, minimising nuisance and the prevention of pollution. Internationally recognised environmental assessment criteria, which comply with ISO 14001, legislation and best practice are used to reduce the impact of our operations. on the environment and local community. We assess the environmental impact of any new processes or products we intend to introduce in advance. Our policy is to purchase products and services that do the least damage to the environment and encourage others to do the same. We demonstrate our commitment to the recovery, re-use and re-cycling of our packaging.

We strive to reduction in our carbon footprint by:

- Optimising routing and dispatching for more efficient fuel consumption.
- Ensuring vehicles are operating efficiently through fleet maintenance reports and alerts.
- Hindering speeding and other fuel wasting behaviours.
- Reducing miles driven by sending the closest vehicle to customers.

Quality is an integral part of our business which ensures we deliver products and services that are safe, compliant and valued by our customers. At Alpha Mechanical Services Ltd & Alpha Facilities Maintenance Ltd, we maintain a Business Management System which complies with ISO 9001, ISO 14001 and ISO 45001 standards. This system is based on the following core principles:

Customer focus, we depend on our customers and therefore must ensure that we understand their current and future needs;

Leadership - through this we establish unity of purpose and provide direction for our organisation. We have created and maintain an environment in which people can become fully involved in achieving the organisation's objectives;

- Involvement of people, people are the essence of our organisation and their full involvement enables their abilities to be used for our and our customers' benefit.

Sustainability Policy Cont.

- Continual improvement; through innovation and business best practices we strive for continual improvement in everything we do.
- Mutually/beneficial supplier relationships, we fully recognise we and our suppliers are independent and a mutually beneficial relationship enhances the ability of both to create value.

Vincent Goetty
